Resolved that Government be asked, in a special case, to excuse the grant, by credit to the late Mr. W. Leaper's estate, of a sum of Rs. 3,000 being the amount of salary he would have earned had he survived to take the leave sanctioned by the Board.

136. Read note by the Trust's Chief Engineer, transmitted by plans and two estimates, for the completion of the Boat House as an absolute form, in order that it may accommodate the bar boat trade of the port, by a shifting of the boiler house further south on the same location. Read also a draft letter by the Chairman to Government submitting the two estimates for sanction.

Resolved that the Chairman's draft letter be accepted, that the plans be approved, that the first estimate, amounting to Rs. 4,50,000, which is merely a replacement of the existing one of one more head of the already-sanctioned 50 lakh Capital loan—now, however, be referred to Government for sanction; and that the second estimate, amounting to Rs. 1,50,000, which is a detailed estimate against the 50 lakh advance of interest required to be also submitted to Government for sanction, as well as for permission to debit the expenditure on Capital as required by section 24 of the Madras Port Trust Act.

137. Read again G.O., Nos. 155 and 275, Madras, dated respectively the 21st December 1907 and 12th July 1908. Resolved that the project and the draft letter to Government be approved.

138. Read and approved a draft note by the Chairman transmitting the returns of No. 2, Mitchell as Harbour Master and offering him an appointment as Managing Master under the Trust's Chief Engineer.

\* The Standard Barometer and Thermometers are read at 8 a. m., 10 a. m., 4 p. m., and 8 p. m., and the daily means are obtained by the application of hourly corrections, deduced from twenty-power observations. The bottom of the barometer is twenty-two feet above the level of the sea, and the entrance of the main gauge is two feet from the ground. The wind, rain, and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 31.75 inches, the average due for the season being 37.48 inches.
